WOOD'S CROP SPECIAL

Giving Timely Information and Prices of Seasonable Seeds

PUBLISHED BY T.W. WOOD & SONS SEEDSMEN RICHMOND VA.

Notes of Interest

OUR FALL CATALOG will be somewhat delayed, owing to existing conditions, and we expect will be mailed to our customers about the 15th to 20th of September. This Catalog will give full information about Garden Seeds for Fall planting; also bulbs, and Seeds for the farm. On this account and due to shortages of many seed items, particularly grain, we are sending this Price Edition of **WOOD'S CROP SPECIAL**, giving up-to-date value on all farm seeds. The acute drought which we are experiencing in many sections of the East, which has destroyed a large acreage of soybeans and corn, as well as other crops, is causing a tremendous demand for Abruzzi Rye, Barley and Seed Oats. Stocks of these grains are in very short supply and we believe that our customers would act wisely in anticipating their needs earlier than usual this season.

SEED OATS

The heavy freeze which we experienced in many sections of the East in late February caused winter-killing of many acres of oats. This condition has affected materially the supply of oats for fall planting and stocks are unusually short.

ABRUZZI RYE

The crop this year, in our estimation, is only about 50% to 60% of normal. Many crops were ruined by farmers being unable to combine early sowing to the shortage of labor, and many crops were ruined by heavy storms just after the crop was matured in June, which the farmers were unable to save.

HAIRY VETCH

Prospects are for a very short crop, well under that existing the past several years and higher prices than usual are existing this season. AUSTRIAN WINTER PEAS, on the contrary, are in ample supply and Government support of prices will hold values steady this season.

CRIMSON CLOVER

Crimson Clover is estimated to be about 25% to 30% less than produced last season. There will no doubt be a very large demand for Crimson for sowing in the various areas and values doubtless will hold very firm to higher during September and early October. The quality of Crimson this year is exceptionally fine bright seed, being well above average, and testing over 99% pure and 85% to 90% germination.

SEED WHEAT

Yields this season are disappointing in many localities. There should be an enormous demand on account of Government restrictions on acreage being lifted. We anticipate quite a shortage of seed wheat available for planting in the East this fall.

In the drought areas where early feed and grazing are quickly needed, we suggest our **WOOD'S GRAIN PASTURE MIXTURE** and **WOOD'S GRAIN HAY MIXTURE**. For years they have given exceptionally fine results and will produce the quickest hay and grazing crops that can be put in during September and early October.

For permanent hay and pasture crops, **WOOD'S SPECIAL GRASS AND CLOVER MIXTURES**, Numbers 1 to 9 are highly recommended.

WOOD'S TESTED SEEDS

Make Every Acre Yield More!

LEADING HEADQUARTERS for Seed Oats, Barley and Rye of the latest improved strains; Onion Sets and Garden Seeds.

WOOD'S SEED WHEAT—Triple cleaned, treated and ready to plant. Will give bumper crops.

WINTER LEGUMES FOR NITROGEN . . .
Crimson Clover; Austrian Peas; Hairy Vetch

FOR QUICK HAY AND GRAZING CROPS . . .
Wood's Hay Grain Mixture
Wood's Grain Pasture Mixture

FOR PERMANENT HAY and PASTURE CROPS, sow Wood's Special Grass and Clover Mixtures Nos. 1 to 9.

WOOD'S SEEDS ARE TESTED

And we know that they will grow before they are sent out. Even then they occasionally do not come up, due to causes over which we have no control, such as covering too deeply or not deeply enough; too little or too much moisture, cold weather, insects, or a crust through which the sprouts cannot penetrate, etc.; therefore, T. W. Wood & Sons give no warranty, expressed or implied, as to the productiveness of any seeds or bulbs we sell, and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seed.

Mention Crop Special No. 537

WOOD'S TREATED SEED GRAINS

Tripled Cleaned. 99% Pure. Over 90% Germination

OATS, WHEAT and BARLEY TREATED WITH CERESAN FREE

Insures Good Stands, Vigorous Growth, Eliminates Disease and Increases Yield 20%

Pedigree Strains of Seed Wheat

Our Pedigree Strains of Seed Wheat are grown under contract from the very highest yielding certified wheats, treated with New Improved Ceresan, and have been inspected by various State Crop Improvement Associations. With reference to Certified Seed, it requires considerable time for cleaning, inspection, etc., and will hardly be available until late September. Write for prices.

Sow 2 bus. per acre for grain; 3 bus. for hay.
OATS 3-bus. bags. Bus. 32 lbs. 30-bus. lots
 Prices Include Treating. Per bus. Per bus.

WOOD'S IMPROVED LEE COLD PROOF STRAIN No. 5. Highest yielding oat for grain hay and winter pasture. Tallest, most winter resistant. (Stock very limited)...\$1.70 \$1.75

FULGRAIN—Best grain oat for Southern Coastal Section. Earlier, hardier per acre 1.70 1.75

FULGHUM 1.70 1.75

LELINA OATS—A cross between Lee and Victoria. In 4-year test averaged 84.3 bus. per acre 1.70 1.75

WOOD'S IMPROVED WINTER TURF OATS 1.70 1.75

VICTORGRAIN OATS 1.70 1.75

BARLEY 2-bus. bags. Bus. 48 lbs. 20-bu. lots,
 Prices Include Seed Treatment. Per bus. Per bus.

BEARDLESS BARLEY—Pedigree. Grown from Certified seed and field rogued 2.45 2.50

Field inspection by the State Inspector showed practically no bearded heads and true to type.

WOOD'S NOBARR BARLEY. Best barley for winter pasture, hay or grain..... 2.05 2.10

BEARDED WINTER BARLEY 2.05 2.10

RYE 2-Bus. Bags. Bus. 56 lbs. Sow 1½ to 2 bus. per acre.

WOOD'S ABRUZZI RYE 2.65.. 2.70

WINTER RYE (For Cover Crop) 1.85 1.90

IMPORTANT NOTE ABOUT DELIVERIES

We wish to call our customers' attention to the fact that local freight movements are becoming exceptionally slow, owing to war efforts. Shipments that normally reach their destinations in two or three days, sometimes require ten days to two weeks. We suggest that our customers anticipate their needs to cover this delay in shipments, in order to avoid disappointment.

WHEAT Treated free, 2-bus. bags. 20-bus. lots, Per bus.,
 Sow 1½ to 2 bus. per acre. per bus. 60 lbs.

BEARDLESS VARIETIES:

WOOD'S REDHART—Pedigree\$2.55 \$2.60

Heaviest yielding and earliest maturing wheat in tests from Virginia to Georgia. Loose smut resistant. Rust escaping. Early maturing and a leader in most Southern field tests.

WOOD'S FORWARD WHEAT—Pedigree.. 2.55 2.60

Best for Piedmont and Mountain. Rust and loose smut resistant.

LEAP'S PROLIFIC WHEAT—Pedigree ... 2.55 2.60

RED MAY WHEAT 2.50 2.55

PURPLE STRAW WHEAT—Pedigree 2.60 2.65

CARALA WHEAT—Pedigree 2.60 2.65

The highest yielding wheat in a 8-year test at the Statesville, N. C., experiment station.

HARDIRED WHEAT—Pedigree 2.60 2.65

Highly cold resistant. Heavy yielder. Week later than Redhart.

BEARDED VARIETIES:

FULCASTER and STONER—Pedigree 2.50 2.55

V. P. I. No. 131 WHEAT—Pedigree 2.50 2.55

Heaviest yielding bearded. Rust resistant. Cold-proof.

WOOD'S GRAIN PASTURE MIXTURE

Includes every ingredient for continuous grazing throughout fall, winter and spring; recommended by Hugh MacRae—one of the highest authorities in the South. Contains the ideal proportions of Hairy Vetch, Austrian Winter Peas, Bur and Crimson Clover, Rape, Abruzzi Rye, Winter Barley, Winter Oats and Wheat.

Sow at the rate of 100 pounds per acre. Price, \$6.50 per 100 pounds.

WOOD'S GRAIN HAY MIXTURE

Contains Early Pedigree Oats, Smooth Wheat, Pedigree Beardless Barley, Hairy Vetch, Austrian Winter Peas and Crimson Clover. The best winter grain hay mixture possible to make.

Sow at the rate of 100 pounds per acre. Price, \$6.00 per 100 pounds.
